

Big Bend Cares - HIV Testing

This agency provides FREE HIV testing. They offer two types of tests--the Orasure test (results in two weeks) and the Clearview finger stick test (results in 30 minutes). Orasure testing is provided on a walk-in basis Monday through Friday. The Clearview test is more accurate but needs to be scheduled in advance. Appointments are on Tuesdays and Thursdays, 9:30 AM to 4:30 PM (Eastern Time).

HIV tests can also be offered to groups. Big Bend Cares hosts testing events at colleges, health fairs and at other community gatherings.
