

Healthy Families - Brehon Family Services

Healthy Families Gadsden/Leon is a free home visiting program. The program is for expecting parents or parents who have a newborn baby younger than three months.

Healthy Families provides:

- In-home parenting education
- Prenatal information, education, and birth preparation
- Basic infant care education
- Child developmental screening and monitoring
- Fun and educational activities for parents and babies using the latest research in brain development
- Well baby care and immunization education
- Family resources and referrals to community services
- Child and home safety education
- Support in setting and achieving family goals

Program services may be provided for up to three to five years, depending on the needs and goals of the family.

Because services are delivered in-home, program staff will work to provide visits at a time that is most convenient. Visits can be provided before or after typical working hours and on weekends.
